We've Got Chucknology

SQUARE HOLE MASTER **DRILL SQUARE HOLES!**

The LFA Square Hole Master is to be used with an SDS or Hammer action Power Tool to produce perfect instant Square holes in all Timbers.

5/8" Chisel size is ideal for door lock morticing.

Door locks can be morticed on-site without the need for expensive jigs or door removal.

"We recovered the cost and went into profit within the first few hours on a new contract."

C & M Joinery Ltd

"One of our bench joiners prefers it to our bench mortiser for many jobs as it is more versatile!"

SubEx Ltd

No need to take projects back to the workshop .

Save time—Save Money!

Great for on-site jobs such as timber fencing.

Useful for timber framed housing. Particularly where mortice joints on exposed beams are to be a feature.

Good for Garden Arbours and structures.
